7 JULY | SEMARAH HOTEL LIELUPE | JŪRMALA

Gints Jakovels

LMT Innovation Lead for UAS / UTM Development & Solutions

[LinkedIn](#)

- ✈️ Gints spearheads UAV commercial operations business development. His projects range from creation of drone pilot education program to practical implementation of mobile-enabled UTM platform and drone technology services.
- ✈️ Gints is an active participant in UAV communities both locally and internationally. He is currently helping to shape the strategy for safe and secure UAV integration into common airspace as a board member of the Latvian Association of Remotely Piloted Aircraft Systems (LARPAS).
- ✈️ While through the GSMA Drone Interest Group, GUTMA and ACJA, he participates in discussions about mobile operators' roles in UAV technologies and drone traffic management.
